Guide for 3M™ ANSI Hard Hats, Headgear, and Faceshields

Combinations

	H-706PFK, LumberJack Kit	H-706RFK-UV, Premium LumberJack Kit	V40AH31A-1P & V40AH9A-1P, PELTOR™ Brush Defender Visor System	82783-00000, H8A Headgear & Polycarbonate Faceshield Kit	82782-00000, H8A Headgear & Propionate Faceshield Kit
3M ID	7010384833	7100039565	7000103837 (H31A) 7000103838 (H9A)	7000127244	7000127243
Includes	Includes a pinlock suspension hard hat, metal mesh visor, earmuff and visor seal. Requires protective eyewear, sold separately. Has NRR rating of 23.	Includes a 6-point ratchet suspension hard hat with 3M™ UVicator™ sensor, metal mesh visor, earmuff, rainshield and visor seal. Requires protective eyewear, sold separately. Has NRR rating of 23.	Includes a metal mesh visor angled to protect the chin and ears with an easy to use flip up/flip down mechanism. Comes with either H9A earmuffs with an NRR of 25 or H31A earmuffs with an NRR of 24.	Includes an H8A headgear and W96 polycarbonate faceshield for grinding, cutting drilling, and demolition.	Includes an H8A headgear and a W96 propionate faceshield for chemical pipe fitting, liquid handling, line breaking, fueling, spraying, and painting.

1. All faceshields meet ANSI Z87.1 and must be worn with protective eyewear.
2. All 3M earmuffs and communications systems listed are rated to ANSI S3.19-1974.
3. U.S. EPA specifies the NRR as the measure of hearing protector noise reduction. However, 3M makes no warranties as to the suitability of the NRR for this purpose. 3M strongly recommends personal fit testing of hearing protectors. Research suggests that users may receive less noise reduction than indicated by the attenuation label value(s) on the packaging due to variation in fit, fitting skill, and motivation of the user. Refer to applicable regulations for guidance on how to adjust attenuation label values. It is recommended that the NRR be reduced by 50% to better estimate typical protection.
4. Not all accessories are rated for elevated temperatures. For additional product ratings, see product label.

⚠WARNING

3M™ Hard Hat H-700 Series and 3M™ Hard Hat H-800 Series provide limited protection only. **Misuse or failure to follow warnings and *User Instructions* may result in serious personal injury or death.** For proper use and selection see Supervisor, *User Instructions* or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.

⚠WARNING

Eye and Face Products: These eye and face protection products help provide limited eye and face protection. **Misuse or failure to follow warnings and *User Instructions* may result in serious potential injury, including blindness or death.** For proper use, selection, and applications against flying particles, optical radiation and/or splash, see supervisor, read *User Instructions* and warnings on the package or call 3M PSD Technical Service in the USA at 800-243-4630. In Canada, call Technical Service at 800-267-4414.

⚠WARNING

Hearing Protection Products: CAUTION! When worn according to the User Instructions, this hearing protector helps reduce exposure to both continuous noises, such as industrial noises and noises from vehicles and aircraft, as well as very loud impulse noises, such as gunfire. It is difficult to predict the required and/or actual hearing protection obtained during exposure to impulse noises. For gunfire, the weapon type, number of rounds fired, proper selection, fit and use of hearing protection, proper care of hearing protection, and other variables will impact performance. If your hearing seems dulled or you hear a ringing or buzzing during or after any noise exposure (including gunfire), or for any other reason you suspect a hearing problem, your hearing may be at risk. To learn more about hearing protection for impulse noise, visit www.3M.com/hearing.

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times when exposed to hazardous noise may result in hearing loss or injury.** These products contain metallic components that may increase electrical hazards. For proper use, see supervisor, Fitting Instructions, or call 3M Technical Support **(In U.S.A. call 800-665-2942.)**

Noise Reduction Rating (NRR):
3M strongly recommends fit testing of hearing protectors. If NRR is used to estimate typical workplace protection, 3M recommends that NRR be reduced by 50% or in accordance with applicable regulations. See User Instructions for more information.
