

Science.
Applied to Life.™

Durable and flexible to the finish.

3M™ Film Disc 375L

The 3M™ Film Disc 375L delivers outstanding tear resistance and consistent finish on a variety of substrates. The 375L Film Disc is an excellent choice to achieve a uniform, fine finish on metal, wood, composites or paint.

Now available...

Grades 60, P80–P400 with a thicker polyester backing for durability

The easier way to a fine finish.

Tear resistant with outstanding durability.

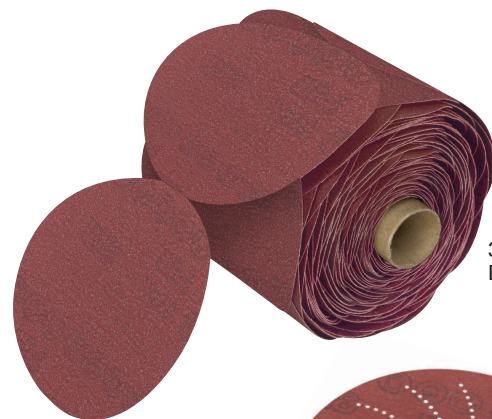

3M™ Film Disc 375L tackles tough applications with ease.

3M has been an innovative leader in film abrasives for over 25 years. We continue this innovation through the introduction of our 375L Film Disc. Film products are best known for their durability and finish characteristics. Other features and advantages include:

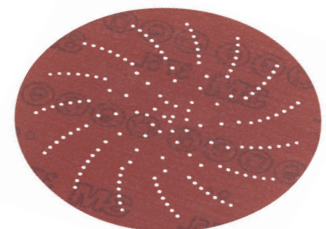

- Durable film construction provides tear resistant properties
- Premium abrasive and load resistant coating provide fast cut and long life
- Produces a uniform and consistent finish because of the flatness of the film backing
- Easy-to-use 3M™ Stikit™ and 3M™ Hookit™ Attachment Systems allow quick product change-outs

**Optimized construction.
Maximum versatility.**

The 3M™ Film Disc 375L achieves a consistent finish on metal, wood, composites and painted substrates.

3M™ Stikit™ Film Disc Roll 375L

3M™ Hookit™ Clean Sanding Film Disc 375L

3M™ Hookit™ Film Disc 375L

3M™ Stikit™ Film Disc 375L

Versatile by design.

Designed to provide maximum durability, flexibility and versatility, the 3M™ Film Disc 375L is an excellent choice to achieve the proper finish on metal, wood, composites or paint. For example:

For metalworking applications.

The 3M™ Film Disc 375L in **coarse grades** is designed to meet your demanding industrial applications. The durable film backing and premium mineral extend abrasive life and help improve overall productivity.

For woodworking applications.

In woodworking, the key is creating the perfect surface for accepting the final finish. The 3M™ Film Disc 375L in **medium grades** sands challenging work surfaces, delivering a superior finish while the load-resistant coating extends abrasive life.

For paint finishing applications.

Pre- and post-paint finishing requires versatility. The 3M™ Film Disc 375L in **fine grades** is designed to deliver a superb uniform finish on plastics and clear coat technologies commonly used in the transportation industry.
